Dr. Dana Hartl, MD PhD, studied at Washington University in St Louis, Missouri, USA and the René Descartes University in Paris, France and is now a full-time head and neck surgeon at Gustave Roussy as chief of the Thyroid Surgery Unit. Her fields of expertise include thyroid and head and neck cancer and laryngology. She has extensive experience in reoperative surgery, robotic surgery, and locally invasive cancers. She is the principal investigator in an academically-funded multicenter phase III randomized clinical trial in thyroid surgery, evaluating the role of prophylactic neck dissection. Other areas of clinical research include intraoperative fluorescence imaging and neoadjuvant therapies. She is co-author of over 140 peer-reviewed publications and 30 book chapters. With the collaborators in the thyroid surgery unit, she organizes annual hands-on teaching and live surgery seminars at Gustave Roussy, and participates in the university and post-university graduate programs of the Paris Universities. She is an expert witness in the Paris Appellate Court, and a member of the International Association of Endocrine Surgeons, the American Head and Neck Society, the American Academy of Otolaryngology Head & Neck Surgery, the American Laryngological Association, and the European Thyroid Association.
